**Index.ts**

```
import express from 'express';

import cors from 'cors';

import authRoutes from './routes/auth';

import userRoutes from './routes/users';

const app = express();
const PORT = process.env.PORT || 5000;

app.use(cors());
app.use(express.json());

app.use('/api', authRoutes);
app.use('/api', userRoutes);

app.listen(PORT, () => {
  console.log(`Server running on port ${PORT}`);
});
```
